

FOR IMMEDIATE RELEASE

FLAMMA receives ICCF Award for investments made at Flamma Honkai

Chignolo D'Isola, Bergamo, Italy – December 14, 2023 – The **Flamma Group** (“Flamma”), a global, fully integrated company producing and commercializing small molecule Active Pharmaceutical Ingredients (APIs) for the life science industry as well as a preeminent Contract Development and Manufacturing Organization (CDMO) of New Chemical Entities (NCEs) and late stage intermediates for the Innovator Companies, was recently recognized by the Italy China Council Foundation (ICCF) for being a Top Investor in China . The event which had over 250 guests included many personalities from the world of culture, sport and entertainment.

“The China Awards are now a traditional event, which Class Editori has been organizing for years with what was once the Italy China Foundation and is now the Italy China Council Foundation”, said Paolo Panerai, Publisher and CEO of Class Editori.

“This is a unique event, and a very specific point of reference in relations between Italy and China, because it is rewarding companies from the two countries for their cross-economic activity and is equivalent to promoting development and harmony between their respective peoples”.

Early in 2023, Flamma announced the commitment to invest \$250M over the next three years. Included in this investment was a significant investment at Flamma Honkai to complete a new GMP facility. The investment will increase Flamma Honkai’s capacity from 200 m³ of small molecule API/NCE capacity to initially 400 m³ and then ultimately to 600 m³. Additionally, new technologies will be added to the site such as flow technology

Gianmarco Negrisoni, Executive Director, stated, “Flamma is thankful for this recognition from the ICCF. We will continue our mission to provide value to the companies that we work with. We will do our part to bring new and innovative drugs to the global pharmaceutical marketplace.”

About Flamma:

FLAMMA is a family owned & run, fully integrated CMO based in Bergamo (near Milan in Northern Italy) established in 1950.

FLAMMA is a company specialized in the cGMP manufacture of APIs, NCEs, RSMs, and advanced intermediates for the pharmaceutical industry. Flamma has particular expertise in high value chiral materials specifically amino acid related materials. Flamma also manufactures specialty compounds and advanced intermediates for the nutraceutical and cosmetic industries and has several generic products.

FLAMMA has five manufacturing facilities- Italy (3), China, and the USA. The cGMP Italian locations (Chignolo, Isso and recently acquired Bulciago) are regularly inspected by the FDA and AIFA. Flamma Honkai, located in Dalian, China, is a cGMP manufacturing facility that has been inspected by Chinese National Medical Products Administration (NMPA) formally known as the Chinese FDA. Flamma provides security when working in China with our 100% owned, self-managed facilities that deliver results without worry. Flamma reliably supplies materials directly to customers and/or delivers materials to its cGMP facilities in Italy in order to deliver the customer's compound on-time and with the desired specifications. Flamma offers cost-effective services to customers looking for a trusted partner within China.

Flamma USA is located outside Philadelphia provides Flamma with the ability to service customers looking to keep materials in the USA for pre-clinical/early stage clinical development.

Being a fully integrated company allows Flamma to move your compounds quickly along their journey taking into consideration all aspects necessary for the success of your project.

Flamma can be of assistance for early stage pre-clinical development of small molecules as well as for large-scale commercial manufacturing. With a total reactor capacity of 1,100 m³ and over 850 employees, see why Flamma should be your next contract manufacturer. FLAMMA - THE THINKING CDMO™.
